

Technical Support Note

Title: Serial Printer – P/N 106430 Hardcopy Gas Test Report Format

TSN Number: 04

File:S:\Bridge_Analyzers\Customer_Service_Documentation\Technical_Support_Notes\
04 Printer-Gas Test Report.docx

Created by: R. Schrader

Last Revision Date: 05-Mar-11

The Serial printer is configured to print a pre-formatted hardcopy report of gas and diagnostic data when the PRINT button on the analyzer front panel is pushed. The report format is shown below:

```
Bridge Analyzers, Inc.  
Model 9004/5  
  
CO 0.21 %  
HC 25 ppm Hexane  
CO2 14.89 %  
O2 0.58 %  
NOx 625 ppm  
  
AFR 14.65  
Lambda 0.996  
Comb Eff 98.36%
```

The printer is a standalone, battery powered thermal printer, and the report shown above is on thermal paper, about 2 ¼ inches square.

The P/N for the printer is 106430, which includes the printer with battery pack and paper installed, charger, manual, serial interface cable, and storage/carrying case. The printer is ready to go - fully self-standing, and will operate for 8 hours off its internal batteries.
